The applicant is requesting participation in a special track at the girls FCA Black Mountain Camp. This "Extreme Competitor" session requires each athlete to extend themselves physically and mentally. We are looking for girls who will embrace the challenges, never say "I can't" or "I quit," and are eager to work together in difficult circumstances with their team members. Each girl is required to have a coach fill out the following assessment about their athletic abilities, toughness, and role on their teams. We ask that you fill out this form, place it in the addressed and stamped envelope the athlete will provide, and pop it in the mail ASAP. Thanks in advance for helping us identify the right girls to admit into this very special and challenging program.
